Oferta de empleo

Se ofertan 10 puestos para Ingenieros de Telecomunicación e Ingenieros Informáticos en el marco de un acuerdo de colaboración con la empresa OPTIMI (grupo ERICSSON). La duración de los contratos será de hasta el 31 de marzo de 2015.

Las tareas a desarrollar se enmarcan dentro de la gestión y optimización de redes de comunicaciones móviles GSM, UMTS y LTE. Los perfiles que se buscan son:

Telecommunication Engineer
- Experience working with mobile networks.
- Knowledge of 2G/3G/LTE networks.
- Database knowledge (MySQL).
- Knowledge of data analysis, statistics management, strategy development
- Engineering knowledge, analytical skills, and/or programming capabilities to develop new ways of working at a task/component and system level.

Telecommunication-Software Engineer
- Experience working on database design and database programming (MySQL, Postgre SQL…)
- Considerable knowledge of 2G/3G/LTE networks.
- Experience developing object-oriented commercial software, using Java and C++.
- Knowledge of software best practices, like test driven development and continuous integration.

Software Engineer
- Experience developing object-oriented commercial software, using Java and/or C++
- Experience working on database design and database programming (MySQL, Postgre SQL…)
- Knowledge of software design and implementation best practices (i.e. Design Patterns).
- Knowledge of software best practices, like test driven development and continuous integration.

Integration & Verification Engineer
- Basic database knowledge (MySQL).
- Basic programming/scripting capabilities (Perl, Python)
- Experience coding with object oriented languages, scripting languages and automation tools.
- Experience working with or an interest in Agile Testing Methodologies, such as Scrum.
- Familiar with different Operating Systems and deployments
- Relies on experience and judgment to plan and accomplish goals.
- Performs a variety of tasks, providing support to development team if required.
- May coordinate the work of others.
- Works within the Scrum Team aiming the success of User Stories to be delivered, assuring Definition of Done is accomplished.
- A certain degree of creativity and latitude is required.

Los interesados deberán enviar su CV, incluyendo una copia de su expediente académico a la dirección **mariano@ic.uma.es** antes del 12 de mayo de 2014.
