Internship – Web Developer

Who we are – maviance GmbH

We are a young international company with exciting products for the mobile/smartphone network that have been developed and are now ready to be launched. We are looking for someone excited to be part of this journey and give us the additional push to ride the waves of change, especially in the newly emerging and shaping markets.

As a young company, we believe in being agile and moving very fast. Therefore you shall be exposed to state of the art software engineering concepts like *Behavior/Test Driven Development, Specification by Example, Kanban/Scrum, Continuous Integration, Test Automation, etc.* just to name a few.

Your role

- Taking part in the conception, implementation and testing steps of our web applications
- Designing and implementing prototypes products, integrating applications with Facebook and Twitter
- Developing of our web applications as well as extending frameworks
- Testing our applications: integration test, acceptance, usability and performance tests

You are

- Interested in new web technologies as well as emerging markets and products
- Paying attention to details and eager to learn
- Autonomous and team-work oriented
- **Fluent in English**; German and French are a plus
- Experienced in developing and testing web applications with **PHP** (Object Oriented PHP) or **HTML-5**
- Familiar with Framework Symfony 1.x/2.x or Test Driven Development tools like PHP Unit or Codeception would be beneficial

We offer

- Internship only for students with **scholarships under Erasmus+ or similar programs**
- A place within a young, dynamic and international team
- Opportunity to learn deep technical skills in real projects – BDD, TDD, ATDD, CI/CD, Kanban, Agile etc
- Participation in international projects while working closely with the management and thus gaining massive first-hand experience
- A wide variety of tasks which imply a lot of responsibilities and creativity
- The internship with a length of **3 mons at least (preferred 4-6 mons), starting May 2015**
- We are based in Germany, Leipzig (one of the most livable and cheapest German cities, close to Berlin)

Contact

To apply, please send your application in English via e-mail to jobs@maviance.com consisting of:

- Subject **"Internship – Android Mobile Developer"**
- **Resume/CV**
- **Cover letter** which besides explaining your motivation answers the question "What was your best movie in 2013 and why?"
- **Any references, relevant certificates or samples of your technical work** (not mandatory, but appreciated)
