## WELCOME

From the Office of the Vice Rectorate for Internationalization, we would like to welcome you to the University of Malaga; a young yet mature institution, facing the exciting challenge of internationalization with the confidence it has the necessary capabilities and resources to become an academic institution of international renown. Moreover, the International Centre for Spanish has long been a key element in the internationalisation process to which the University of Malaga is committed.

The University is privileged to be situated in the historical city of Malaga, the focus of attraction for many cultures due to its strategic location on the Mediterranean coast, and for its magnificent climate. Throughout history, Phoenicians, Romans and Muslims have all been drawn to Malaga, leaving behind a rich cultural heritage and shaping the vibrant, open character of the people.

Today, Malaga is a busy, cosmopolitan city with excellent infrastructure and services, a combination which provides an enviable lifestyle for its inhabitants. The city remains a centre of attraction for countless visitors who, captivated by its many charms, frequently decide to set up permanent residence here.

As Vice-Rector for Internationalisation, and proud to be Malaga-born, I hope your stay in our city is enjoyable, and that you leave here wishing to return as soon as possible to what Nobel Prize winner Vicente Aleixandre called the 'City of Paradise'.

A warm welcome awaits you here.

**Susana Cabrera Yeto**  
Vice Rector for Internationalisation

## INTRODUCTION

Welcome to the International Centre for Spanish of the University of Malaga (CIE-UMA).

Since 1947, the International Centre for Spanish has been offering Spanish language courses in Malaga. The excellent results obtained in the Centre's seventy year history are a reflection of the dedication and experience of the teaching and administrative staff of the Centre. We are constantly working to further develop the wide range of courses and programmes offered at our Centre in the traditional El Palo neighbourhood of Malaga.

Following the guidelines set by the Vice Rectorate for Internationalisation of the University of Malaga, the CIE-UMA works to address the current need for multiculturalism and internationalisation. The Strategic Plan of the University of Malaga, drawn up with the academic needs of our Centre in mind, helps us to increase the number of courses on offer and further improve the quality of the methods used in the teaching Spanish as a foreign language; a language spoken worldwide, mother tongue for millions, in short, a global language and top-level professional goal.

This exciting work means we constantly have our students' welfare at heart, and aim to satisfy their needs and desire to learn. The Centre works in accordance with the agreements reached between the CIE-UMA and some of the most prestigious international universities and institutions.

All this in Malaga, strategically placed in the heart of the Mediterranean. Its multicultural environment, abundant commercial, touristic and cultural opportunities, museums and businesses, all combine to make it easy to fulfill our goals. Malaga is a city which looks to the future, but does not forget its past; a melting pot of cultures within easy reach of Europe, Latin America and Africa. The city boasts excellent road and transport infrastructure, including a high-speed railway, international airport and seaport.

The CIE-UMA combines tradition and experience with the modern and dynamic spirit of the versatile and multifunctional Spanish language. For what we strive to be, for what we want to show and for what we are, we invite you to visit us and share an unforgettable experience.

## AREA OF HUMANITIES

### 1. From El Greco to Picasso: The Grand Masters of Spanish Painting

The works of El Greco, Velázquez, Goya and Picasso are of paramount importance in the history of Spanish, and Western painting. This course will help students to understand the artistic value of these works in their socio-historical context.

### 2. Spanish Art and Architecture

The course starts with a short introduction on how to analyse art (painting and architecture). Following this introduction, artistic movement and artists are examined. Finally, students will give presentations on selected artists and topics.

### 3. Christians, Jews and Muslims in Spain

This course analyses the evolution of the complex relationship between these three religions in Iberia within a political, economic, religious, cultural and artistic context.

### 4. Intercultural Management

Understanding the impact of culture on international business management is essential for those who wish to benefit from a cross-cultural studying / working experience.

### 5. Cross-Cultural Psychology

Students will receive an introduction to theoretical and empirical studies on the role of culture in human behaviour, while also reflecting on cross-cultural transitions, and personal challenges faced in a foreign culture. Students then integrate experience and newly-acquired knowledge into culturally diverse working contexts.

### 6. Gender Issues in North America and The Hispanic World: Cross Cultural Perspectives

This course examines the evolution of gender issues in North America and Latin America, starting with their origins in Europe. Also examined are the various cultural and political factors which help explain the differing approaches to gender among Hispanic and Anglo-Saxon societies.

## AREA OF ECONOMICS AND SOCIAL SCIENCES

### 1. Criminal Sociology

Criminal Sociology analyses cultural norms; how norms have changed throughout history; how they are enforced; how they condition social life and how individuals and societies are affected when norms are broken.

### 2. Information Technology in Tourism Management

To gain knowledge of, and apply, Information and Communication Technologies (ICT) in the tourism industry.

### 3. International Finance

This introductory course provides students with the tools and methods to study, analyse and understand international economic issues and problems.

### 4. International Marketing

The objective of this program is to introduce and help students understand the complex issues involved in commercial operations in the international markets. Special attention will be paid to the influence of cultural differences. Students will be provided with the relevant material for each unit.

### 5. International Relations: Spain as a Gateway to Europe, Africa and Latin America

This course is designed to familiarise students with the changes in our world. After analysing the inherent difficulties of maintaining good relations at local and international level, students will examine the historical record of developed countries in the 20th century, the Cold War, and the ensuing changes after the disintegration of the USSR.

### 6. Social research method

This course shows students how to carry out social research. During this course the student will pass through the different stages of a social research project.

### 7. Big Brother Contestants: a kind of Employment Contract Relation

Legal analysis of the contract labour institution. Study and knowledge of worker and employer, with special focus on the legal requirements set for their action in legal traffic.

### 8. The European Union and Current challenges

This course aims to "open a critical window" to the future of this common project from the current situation, covering much more than just basic historical events, the working of political institutions or economic integration.

### 9. The Good, the Right and the Fair Thing: What is the Aim of Industrial Relations?

Development of research projects (regarding the configuration of industrial relations). Analysis of the economy of communion and the common good economy.

## AREA OF ENGINEERING

### 1. Algorithms: Design and Analysis

Techniques for the design and analysis of efficient algorithms, with special emphasis on methods useful in practice.

### 2. Artificial Intelligence in Games

Introductory course on Artificial Intelligence. The topics may include: AI fundamentals; intelligent agents; heuristic search algorithms; adversarial game playing; reinforcement learning and neural networks.

### 3. Automatic Control

Fundamentals of Automatic Control. Linear systems. Mathematical Tools. Transfer Functions. Time Response and Stability. Analysis and Design of Control Systems. Applications in Engineering.

### 4. Biomedical Computational Modeling

Fundamentals of biological systems modeling. Mathematical Modeling of Biomedical Systems. Computational modeling tools. Multi-physics models of biological systems. Physiological systems control modeling. Biological Systems modeling.

### 5. Computer Design and the Hardware/Software Interface

The objective is to understand the design and organization of a modern computer and the connection between the software and hardware.

### 6. Concurrency and Parallel Programming

Concurrent programming, threads, Java, C, parallel programming, many-core technologies.

### 7. Data Communication Networks

This course covers the fundamentals of data communication networks, with the aim of providing insight on how networks are structured and how they operate, with special focus on Internet and Local Area Networks. The course covers topics from the physical layer, such as digital/analog transmission and multiplexing, to the services provided to end-users in the application layer.

### 8. Database Querying is not limited to Computer Science

Relational databases have become a standard to store information. Until recently, database access was limited to IT professionals. Nevertheless, nowadays a professional of any field has to be able to develop deep analysis of the data handled in a professional environment.

### 9. Developing .NET Application with C#

Microsoft Visual C# is one of the most popular programming languages designed specifically for Microsoft's powerful .NET platform. C# has become a language of choice for implementing Windows applications that integrate with the Internet and the Web and also for the development of ASP. Net Web Applications. This course aims to help beginners become literate in Visual C# developers.

### 10. Foundation for Signal Processing

Signals and Systems is an introduction to analog and digital signal processing, which forms an integral part of engineering systems in many diverse areas including: seismic data processing; communications; speech processing; image processing; defense electronics; consumer electronics and consumer products.

### **11. FPGA-based Digital System Design**

Design of digital systems based on programmable logic.

### **12. Fundamentals of Programming**

Computer Programming.

### **13. Hardware Platform for Digital Signal Processing**

Design of digital signal processing systems based on hardware platforms including DSPs and FPGAs.

### **14. Intelligent System**

A first course in Artificial Intelligence which covers both the Symbolic and Computational Intelligence approaches.

### **15. Introduction to Computer Vision**

Algorithms and methods which enable computers to extract information about the world through images captured by sensing devices (e.g.cameras) connected to the computer.

### **16. Introduction to Digital Signal Processing using Matlab**

Digital signal processing is widely used in areas ranging from speech and image processing to advanced communication receivers. This course offers a theoretical-practical approach to digital signal processing, with extensive Matlab examples to illustrate the theoretical concepts.

### **17. Microbotics (Microcontroller based robotics)**

This course will deal with microcontroller-based robot design. The focus is mainly on design at the lower levels: electronics; mechanics. The design process will cover components selection to microcontroller programming, in order to reach a functional prototype.

### **18. Network and Distributed System**

Internet layered network structure; basic protocol functions such as addressing, multiplexing, routing, forwarding, flow control, re-transmission error recovery schemes, and congestion control; overview of link, network and transport layer protocol standards, following a bottom-up approach; introduction to wireless and mobile networks. This course will also give hands-on experience in network programming using the socket API in C and Java programming languages.

### **19. Physics for Video Games**

Physics; Computer Simulation; Numerical Methods

## AREA OF ARCHITECTURE

### 1. Architecture and landscape

The contents of projects, analysis and interventions will focus on intervention in an established urban and natural environment; the role in shaping the environment and the city as a whole; the various stages of a coherent overall design process, from the phases of urban, architectural and detailed designs.

### 2. Studio 6

The course will present two different project challenges. The first exercise will feature a small, controlled, conceptual project-study where fundamental themes such as light, form, and space are considered. Students will be encouraged to use their creative freedom and to explore different architectural variables in order to arrive at a final design solution.

## PROFESSIONAL STAFF AT CIE-UMA

### MANAGEMENT

#### Vice Rector for Internationalisation

- **SUSANA CABRERA YETO:** Ph.D. in Economics (Universidad de Málaga), Specialist in Regional Planning and Environmental Policy (Universidad Politécnica de Valencia) and in Economics and Management of Cultural Assets (Universidad de Florencia).

#### Director

- **GIOVANNI CAPRARA:** Giovanni Caprara: B.A. in Hispanic Philology (Università degli Studi di Siena, Italia), he also holds a Ph.D. (Universidad de Málaga). He has obtained the convalidation of his degree in Hispanic Philology in the Universidad de Málaga. He is a member of the faculty in the Department of Spanish, Italian, Romance Philology, Literary Theory and Comparative Literature. He is the author of numerous essays such as *Tales that tale. Anthology of Mystery and Noir*, *Teaching materials for the Interpretation of Languages and listening comprehension (Spanish-English-Italian)* and *Linguistic Variation, Translation and Culture*, the latter published by Peter Lang Publisher. His research activity is focused on the translated works of Andrea Camilleri. He has translated (Italian-Spanish-Italian) many authors from both literary cultures. Extraordinary Doctorate Award (2012). Publisher of *Quaderni camilleriani* in the Rthesis Magazine and *AnMal Electrónica*.

#### Academic coordinator

- **SALVADOR PELÁEZ SANTAMARÍA:** Ph.D. in Spanish Language (Universidad de Málaga) and B.A. in Hispanic Philology, with Minor Thesis and certificate of Proficiency Researcher in Linguistic Analysis (Universidad de Málaga). Author of *Actividades para el Marco Común Europeo (C2)* and co-author of *La enseñanza del español como lengua extranjera a la luz del Marco Común Europeo*, Spanish handbook *Vale, 1, 2 y 3*, EFE handbook *Turismo y más, Método 2* and *Método 4*.

## REGISTRATION PROCEDURE

Registration is personal and non-transferable. Please read the general registration requirements and conditions of enrolment in the following sections 1 to 7:

**1. Age.** Students must be at least 16 years old to register.

**2. Registration options.** Registration includes the place reservation fee and enrolment. The total amount of the registration fee (place reservation and enrolment) must be paid before the start of the chosen course or programme.

**3. Registration payment.** There are two payment options:

- **Total payment:** the total amount of the registration fees must be paid. This is the **only method of payment** accepted for: the Spanish Language Course for DELE certificates; Teaching Spanish as a Foreign Language course; Erasmus and Exchange Students' course and the Methodological and Cultural Immersion course for Teachers of Spanish as a Second Language.
- **Two-stage payment:**
  - Place reservation fee: 20% of the registration fee.
  - Enrolment: 80% of the registration fee.

**4. Bank account.** Both of the above payment options can be paid in cash or by bank transfer, to the following account:

BANCO SANTANDER

Branch: Marqués de Larios, 9, 29015

Recipient: Fundación General de la Universidad de Málaga, Centro Internacional de Español

Account number: 0049 5204 50 2618591861

IBAN: ES1500495204502618591861

Swift code (BIC): BSCHEM33

Student's name and the registration period should be clearly indicated on the proof of payment slip. All bank charges must be covered by the student at the beginning of the course.

**5. Credit card payment.** Both registration methods may also be paid by credit card at the Secretary's Office. All bank charges must be covered by the student.

**6. Documentation.** Students who have already paid the place reservation fee must send the following documents to the Secretary's Office, Centro Internacional de Español de la Universidad de Málaga (Avda. de la Estación de El Palo, 4 - 29017 Málaga) or to [cie@uma.es](mailto:cie@uma.es):

- Completed registration form
- A photocopy of the bank-transfer or payment slip
- A passport-size photograph
- A photocopy of your identity card (citizens of the European Union) or your passport

**7. Cancellation.** The place reservation fee (20% of the registration fees), will not be reimbursed under any circumstances. In order to be entitled to reimbursement of the enrolment fees (80% of the registration fee), students must notify the Secretary's Office in writing of their intention to cancel their registration, with the necessary documents justifying the cancellation, at least 20 calendar days prior to the beginning of the course. There will be no reimbursement after that date. All bank charges accrued due to the reimbursement of the enrolment fees must be covered by the student.

**8. Duplicates.** Duplicates of certificates issued by the Secretary's Office cost €12 each.

**9.** Students registered on a course which does not provide health cover, may obtain insurance through the Secretary's Office.

## ACTIVITIES

The International Centre for Spanish of the University of Malaga offers students a wide variety of activities to do outside class time.

Every Tuesday and Thursday afternoon, students can learn more about Malaga and Spanish culture and society firsthand. On weekday evenings, our teaching staff organizes Spanish film sessions, talks on topics related to the culture of Malaga and Spain, together with visits to places of interest in the city, such as the Picasso Museum, the Alcazaba of Malaga, the Centre for Contemporary Art and the Municipal Heritage Museum.

In addition, students can enjoy a wide range of sports activities thanks to the collaboration agreement between Club El Candado and the University of Malaga. Club El Candado is a sports club with a gymnasium, and offers a variety of activities, such as sailing, golf, padel tennis, rowing, etc.

Apart from the activities we offer during the week, we also want students to take advantage of the weekends. So, every Saturday we organize trips to other towns and cities in the province of Malaga, such as Ronda, Antequera and Marbella. We also organize trips to other main cities in Andalusia including Granada, Seville and Cordoba.

If students would like to do adventure sports, there are opportunities for surfing in Tarifa (Cadiz), skiing and snowboarding in Sierra Nevada (Granada) or scuba diving at one of the many diving centres along the coast.

SUPPLEMENTARY  
ACTIVITIES

These activities, included in the registration fee, are held either at the Centre or elsewhere. They take place outside class time. Participation in these activities will be positively evaluated in the final qualification of the course.

- **Spanish Film Sessions:** An opportunity to see some of the latest Spanish films. This is a great way of improving knowledge of the Spanish language, whilst at the same time getting an insight into the Spanish culture.
- **Talks/Debates:** Informal presentations or talks on Spanish culture and society, including Spanish history, festivals, cuisine, customs, etc. The talks are given by our teachers and are followed up by debates, question time and student participation.
- **Visits to landmarks in Málaga:** Teachers accompany and guide students around the most emblematic sites in the city including the historic centre, museums, monuments, natural areas, etc.

Thanks to the collaboration agreement between the University of Malaga and Club El Candado, students have the chance to do different sporting activities either free of charge or at special rates. These activities include:

- Sailing
- Rowing
- Golf
- Padel Tennis
- Tennis
- Diving
- Pilates
- Gym

These activities usually take place at weekends. The prices of these activities have been fixed with our students in mind.

- We offer excursions to:
  - **Ronda**
  - **Antequera**
  - **Marbella**
  - **Granada**
  - **Seville**
  - **Cordoba**
- We organise adventure sport activities. Depending on the season, these include:
  - **Ski / Snowboard in Sierra Nevada (Granada)**
  - **Surf / Kite Surf in Tarifa (Cadiz)**
  - **Diving / Paddle Surfing in Nerja (Malaga)**
- Depending on your dates of stay at the Centre, there are opportunities to participate in other activities including:
  - **Carnival Week**
  - **Holy Week Processions**
  - **The Annual Fair**
