## Keynote Speaker

**Jesús Páez Cortez MD, PhD**  
 Senior Scientists at AbbVie

Dr. Páez has experienced 3 significant professional changes in the last 17 years. He has transition from having a patient focused career, to an academic path development, and a basic science position in a pharma company. During his 12 years in Boston, he had to evaluate the available professional options and define which one would fit with his career and personal dreams. Jesus has an MD and PhD degree from Venezuela, and trained at Harvard's and Boston University's School of medicine. He spends his extra time as a career mentor, a public speaking coach, a photographer, and DJing.
