

## Call for Abstracts: International Week in Health Care, Rehabilitation and Social Services

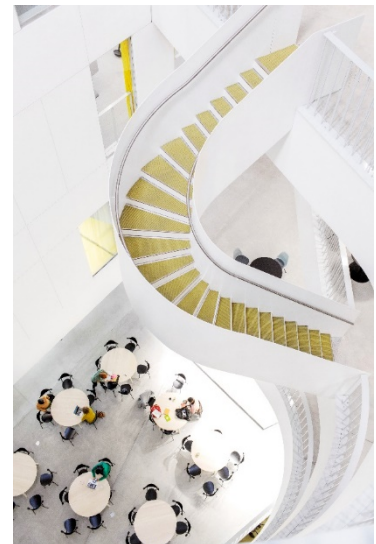

@ Metropolia 12 - 14 May, 2020

Metropolia University of Applied Sciences warmly welcomes faculty members and students from its current and future partner institutions to exchange knowledge, experiences and ideas as well as to create collaborative networks. Metropolia's Innovation Hubs are the inspiration for the themes in 2020.

### Themes

- Promotion of health and functional capacity
- Strengthening participation and human agency
- Promotion and development of entrepreneurship and leadership skills
- Intelligent, user-oriented solutions and services

We are interested in new research focusing on your specific subject area as well as new pedagogical methods such as e-learning, simulated learning, virtual learning, best practices, educational workshops, ideas for co-creation and collaboration. Please send us your abstract for oral presentations, posters or workshops suitable for but not limited to multi-professional student groups.

### Network opportunities

- International Week offers opportunities for project planning, meeting your colleagues and good opportunities to find new partners. We also offer opportunities to deepen current partnerships.

### Call for Abstracts and registration

- [Call for abstracts open until 31 January 2020](#)
- Registration 15 Feb - 31 March 2020

### Fees and costs

There is no participation fee for the International Week, however the participants are responsible for their own costs (including travel, accommodation and living).

### For more information

The link for submitting abstracts, online registrations for faculty member and students, programme of the week and other useful information can be found at [International Week's website](#).

With warm regards,  
Eija Tamminen & Katariina Alava, International Coordinators
