

# Call for Applications

International Teaching Week 2025 at Hof University

## AI Odysee: Understand, Explore, Create!

May 19 - 23, 2025

**Hof  
University**

University of  
Applied Sciences

# Dear partners, dear professors,

We are excited to announce the International Teaching Week 2025 at Hof University, focusing on the transformative theme "**AI Odyssey: Understand, Explore, Create!**".

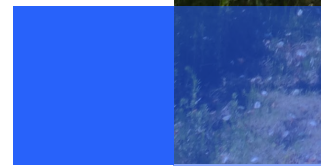

This week-long event is dedicated to fostering cross-border academic collaboration, knowledge exchange, and creative exploration of artificial intelligence (AI).

## About the theme

Artificial intelligence is reshaping the way we live, work, and think. Under the banner of "AI Odyssey", we aim to:

- **Understand** the fundamentals of AI and its societal impacts,
- **Explore** innovative applications across disciplines,
- **Create** solutions and engage in collaborative teaching and learning experiences.

We invite international lecturers to join us in sharing their expertise, inspiring students, and enriching this dialogue.

## International Teaching Week 2025 – Call for Applications

# AI Odysee: Understand, Explore, Create!

### What We Offer

- A platform to collaborate with fellow educators from around the globe.
- The opportunity to interact with a vibrant and diverse student body (BIP format: also international students from our partner universities are invited to join).
- Insight into our university's academic culture and engagement with local and international networks
- Reimbursement for teaching and travel/living expenses in our guest lecturer program (only available for lectures outside the Erasmus+ framework)

### What We Seek

We welcome applications from academic professionals with expertise and interdisciplinary approaches to AI in:

- Business, Law and Social Sciences
- Computer Science
- Design
- Engineering (e.g. Water Management, Energy Management, Textile Technology, Materials Science, Industrial and Mechanical Engineering)
- Health Care

Lecturers are encouraged to propose interactive workshops, lectures, or collaborative teaching or lab sessions that align with the theme, either on an introductory or specialist level.

The total amount of teaching should equal **8 teaching units** (= 8 x 45 min); at least half of the proposed teaching units should align with the AI theme.

## International Teaching Week 2025 – Call for Applications

# How to proceed

Interested lecturers should submit the following documents:

- Application form with details on the proposed lectures
  - Title
  - Short description of content
  - Introductory or specialist level?
  - Bachelor /Master level
  - Prerequisites of the participants, if any
- brief CV (max. 2 pages)

Please submit your interest to your counterpart at Hof University via the attached application form. If you do not have a direct counterpart yet, please contact [tina.seidel@hof-university.de](mailto:tina.seidel@hof-university.de) from the International Office for a match-making.

Please submit your proposal till **February 10, 2025**.

**Looking forward to your proposals!**
