## Cloud Engineer

**Location:** Spain, Granada

**Job type:** Full Time

We are creating a **new team** in our R&D center in Granada that will be developing Intuo, a **Talent Enablement Platform**. If you want to be part of this new challenge, help create a team and develop a product focused on Talent enablement, this is your opportunity – we are looking for a **Cloud Engineer**

To make it in our R&D center, you should be an engineer by heart, creative, being able to communicate your ideas, have fun when programming and be a team player. You don't need 15 years of experience you just need the right attitude.

We are engineers and architects with a diverse background, sharing a passion and drive for innovation and quality. We look for people that both complete and challenge us to reach our goals.

### Qualifications And Experience

- Minimum 3 years higher education within information technology and/or equivalent relevant experience within software development
- Excellent English language skills, both written and oral is essential in the position
- Previous experience from working within a multi-disciplinary team/project environment will be an advantage, especially if it is combined with knowledge and experience from agile software development

### Experience on the following areas is a must:

- Cloud computing
- DevOps practices
- CI/CD set-up

### Experience using one or more of the following technologies is an advantage:

- Modern web development, HTML5 and CSS3
- Ruby on Rails
- Python
- JavaScript, nodeJs
- Azure DevOps and/or AWS (EC2, RDS, S3, Route53, Cloudfront,...)
- Polyglot storage (SQL, Document Databases)
- Git
- Microservice architectures
- Message based architectures

**We offer**

High level of flexibility and independence where work/life balance is in focus - this means that you're the one responsible to manage your working hours (Flexi Time), and you can even work from home every now and then. In July and August, you can enjoy more time for yourself (36 working hours per week).

You will have access to training to develop yourself personally and professional and you will have fresh fruit and coffee every day. You will also enjoy extra days of holidays depending on your seniority (up to 28 days).

There is also time for you to have fun participating in social events organized by our Unit4Fun group, time for solidarity causes with our Unit4Cares group, time for sports with Unit4Moves and time to be conscious about the role of women in technology with our Business Women Network.

**Reference number:** 1500

**Job area:** Engineering

**Date posted:** 10/04/2019
