Connect44 in Spain

Join our recently opened Front-Office Operation Center in Málaga, Andalusia. We are looking for different experienced profiles to gather a group in which the working excellence will be maintained. Be part of Connect44 Spain team from the beginning and grow along with the Spanish brunch of this telecommunication multinational company. In the first phases we will be helping telco vendors to monitor current live network operations in which Quality and Accuracy are strictly mandatory. But this is just the beginning, as soon as we are expanding our footprint within Spain, the nature of the projects and the challenges will vary. If you want to participate in this amazing journey do not hesitate and apply for this position. You are one click away of starting a new professional life.
