Events**

A JOINT VENTURE
PARTNERSHIP OF

CEDIA

Future AV Professionals

At ISE each year leading trade associations AVIXA and CEDIA partner to host students and educators from around the world for a day exploring careers in the AV industry.

This programme is designed to inspire, excite, and inform. Along with their faculty, students explore the tradeshow floor, network with young professionals and engage with exhibiting companies that showcase different roles in the industry.

The primary goal of the programme is to promote greater awareness of AV careers, while also building bridges between schools and industry companies seeking qualified talent.

Programme 2019

Time

Thursday 07 February | 09:30–16:30

Where

Room G106, G107, Amsterdam RAI, Europaplein 2-22,
1078 GZ Amsterdam, The Netherlands

- **15:00–15:30** Wrap Up
- **16:30** Departure

itinerary is subject to change

About ISE

[Integrated Systems Europe](#) is the largest AV systems integration show in the world. The annual four-day event, which takes place at the RAI Amsterdam every February, is organised and run by Integrated Systems Events. Integrated Systems Events is a joint venture between AVIXA and CEDIA – the two leading industry trade associations for the global audiovisual industry. Since the first Integrated Systems Europe in 2004, the event

has grown year-on-year. In 2018, we hosted almost 1,300 exhibitors (with countless new product launches) and welcomed over 80,000 visitors to the RAI.

ISE is more than an exhibition. Extensive professional development programmes from AVIXA and CEDIA, as well as Show Floor Theatre sessions from exhibitors, are integral to adding value for participants and to the

show's success. ISE also hosts various pre-show and at-show events, as well as tech tours, networking opportunities and other business initiatives.

The result is a show that has a friendly and positive atmosphere, making ISE the ideal place everything the AV industry has to offer.
