AN INTRODUCTION TO UNIVERSIDAD DE MÁLAGA

Universidad de Málaga is a young institution. This state-owned institution was founded in 1972 and has an annual budget exceeding 250 million Euros. With more than 35,000 students and 2,400 teachers, UMA’s study options comprises 60 Bachelor’s programmes, over 50 Master’s programmes, over 40 PhD programmes and around 100 courses held throughout the academic year. These programmes are carried out by 18 faculties, with a total of 81 departments.

There are 278 research groups currently involved in 180 national projects and 30 international or European projects. In recent years, the number of partnerships with companies and other organizations has ranged between 350 and 400; furthermore, an average of 50 patents per year have been registered, a third of these having international relevance.

Each year our university welcomes over 1300 new international exchange students from different mobility programs as Erasmus+, Erasmus Mundus or Non-European programs. We have a large amount of agreements with some of the most prestigious universities (especially in Europe and South America).

UMA constitutes one of the three vertices of the so-called “productive triangle” of the city, together with the airport and the PTA or Parque Tecnológico de Andalucía (Andalusia Science and Technology Park). The latter has close ties with the University due to the constant flow of ideas, highly qualified professionals and advanced technologies.

At present the UMA has two campus, El Ejido and Teatinos, in addition to several other buildings located in different parts of the city. The ultimate objective of the policy of the university regarding infrastructure is to eventually have all university centres and services located in the Teatinos campus.

Lectures in English

The language of instruction at UMA is Spanish, although there are some courses offered in English. However, these are quite demanded and there is a limit of exchange students per course. Therefore, our institution cannot guarantee that courses taught in English will be available for every exchange student.

This is the list of courses taught in English for the academic year 2018/2019 (the offer for 19/20 will not be available until July):

In order to assure in which language the courses will be taught, it is advisable to read the teaching guide of each course (read the instructions to find PROA in the previous section).

Postgraduate Studies

Postgraduate Studies (Masters and Doctorates) at UMA will ONLY be possible for Exchange students if this option is included in the Bilateral Agreement. In this case, master courses can only be selected from the main faculty where the student has been nominated by the home institution. Besides, those students selected for master level, will have to contact the master coordinator before the 30th June. Contact details can be found in the webpage of each master degree: https://www.uma.es/masteres-oficiales/info/80399/master-por-areas/

Restrictions and rules established by UMA

• Mobility students are obliged to choose, at least, 50% of the subjects from the main faculty where they have been nominated. The other 50% of courses can be selected from a different faculty (only bachelor courses). Any doubts should be clarified at the home university before the selection of candidates.

• For Medicine students: it will not be possible to enroll in any course of 6th Year.
LEARNING AGREEMENT (FOR ERASMUS+ STUDENTS ONLY)

BEFORE THE ARRIVAL

The Learning Agreement is the academic document that contains the equivalence of courses or credits that will be recognized by home institutions. The recognition of these credits will depend entirely on the home university criteria. Erasmus+ students are responsible for being aware of the regulations, procedures and deadlines of home institution regarding the submission of this document.

UMA only has a deadline for Medicine, Health Science or Fine Arts Learning Agreements:

To avoid any difficulties, those Erasmus+ students who want to select any practical course (as Practicum) in Medicine, Health Science or Fine Arts (full year, first semester and second semester students) are obliged to send the Learning Agreement to the respective faculty coordinator of UMA before the 30th June.

ONLY Faculty Coordinators or Academic Coordinators at UMA will be able to sign Learning Agreements. Please, find here the contact details of faculty coordinators at UMA:

https://www.uma.es/relaciones-internacionales/cms/base/ver/base/basecontent/105836/coordinadores-de-movilidad/

The Learning Agreement should be signed and updated by the academic coordinator before leaving UMA.

Attention: Any Learning Agreement signed before the selection of courses in our online Incoming Student Platform (EMI) will be provisional since it is necessary to confirm the availability of courses in the Pre-enrollment section.

Please, do not send by post or email the original version of the Learning Agreement from home universities to the International Office since only Academic Coordinators or Faculty Coordinators (from host and home institutions) will be able to sign it.

After accessing EMI, incoming students can go to the section “Learning Agreement”, where they will find the contact details of the respective academic coordinator or faculty coordinator, in charge of signing this document.

The Learning Agreement can be modified during the mobility with prior consent of both academic coordinators (from host and home institution) and before the deadline of the enrolment modification at UMA (included in the Welcome Guide).

BEFORE THE DEPARTURE:

The Learning Agreement should be signed and updated by the academic coordinator before leaving UMA.
LANGUAGE OF INSTRUCTION

The language of instruction at UMA is Spanish. Therefore, those students who do not speak Spanish usually have difficulties in finding the appropriate courses and to communicate during their stay in Malaga. We do not require any certification, although students are expected to be able to follow lectures in Spanish. In accordance with the Common European Framework of Reference for Languages, a B1 Spanish level is advisable.

Note: Special mention to the students from Health Sciences for the face-to-face communication with the patients.

ACADEMIC PROGRAMME

Number of subjects: Spanish students normally take 5 subjects per term.
Number of hours per week: Students spend 20-25 hours in lectures.
Number of weeks per term: 15 weeks + 3 or 4 weeks for exams.

The academic year runs from September/October to June (in some cases early July) with exams offered in February for the first term courses and finals in late June and early July for annual and second term courses which test cumulative knowledge of the entire course. There is also a second examination call in September only for students who did not pass at any ordinary examination call. The student must indicate on EMI all the courses he/she is going to write in September.

EUROPEAN CREDIT TRANSFER SYSTEM

The European Commission has developed the European Credit Transfer System (ECTS) to help students make the most of their studies abroad. This system is a way of measuring and comparing learning achievements and transferring them from one institution to another. Likewise, it helps higher education institutions to enhance their co-operation with other institutions by improving access to information on foreign curricula and providing common procedures for academic recognition.

ECTS credits are a value allocated to modules to describe the student workload required to complete them. They reflect the quantity of work each course requires in relation to the total quantity of work required to complete a full year of academic study at the institution, that is, lectures, practical work, seminars, private work – in the laboratory, library or at home – and examinations or other assessment activities.

UMA has introduced the ECTS into all its faculties and schools. With this system, 60 credits represent one year of study (in terms of workload); normally 30 credits are awarded every six months (a semester).

MAXIMUM CREDITS PERMITTED

In accordance with the European Commission and the new System of European Credit Transfer, exchange students accepted by UMA are obliged to take NO MORE than 60 credits for a full year and 30 credits for one semester.

• 30 ECTS credits for one semester.
• 60 ECTS credits for a full year.

Note: As an exception UMA offers the flexibility to slightly increase this amount and allows to enroll a maximum of 36 (one semester) ECTS credits and 66 (full year) ECTS credits in those cases where it is necessary.
MINIMUM CREDITS PERMITTED

European Students
1 course per semester

Non European Students
18 ECTS credits for one semester.
36 ECTS credits for a full year.

Home institutions set the policy regarding the amount of credits obtained through an international exchange.

Exchange students are responsible for being aware of these policies and procedures before starting the mobility programme.

GRADING SYSTEM

The grading system used by Spanish universities is based on specific attainment levels, rather than on a numerical scale. This is the equivalence with the ECTS grading system:

<table>
<thead>
<tr>
<th>SPANISH GRADING SCALE</th>
<th>ECTS GRADING SCALE</th>
</tr>
</thead>
<tbody>
<tr>

ACCOMMODATION

Renting a room in an apartment shared with other students is the most popular way of living in Malaga.

There are also several dormitories, but unlike in many other countries, this option is not so popular among exchange students. Meals, laundry, cleaning and other services are usually included, but at the same time dormitories are more expensive than sharing a flat with other students.

Another kind of accommodation in Malaga would be to stay with a Spanish family. This might be especially beneficial for those students who wish to practice their Spanish language.

UMA does not book accommodation for students, but it assists them in finding a room or apartment through its Welcome to UMA Office completely free of charge and also through the Accommodation Service (Servicio de alojamiento).

OUR CULTURE

FESTIVITIES

Several festivities are held in Malaga every year. The most famous and meaningful ones are Semana Santa (Eastern) and la feria de agosto (August Fair). However, there are other dates in which the city will be particularly cheerful and crowded: fiesta de San Juan (24th June), fiesta de la Virgen del Carmen (16th July) and Carnavales (February).

GASTRONOMY

Andalusian gastronomy is based on the Mediterranean diet: local and fresh ingredients such as vegetables, fruit, fish and olive oil. Our cuisine and our culture in general, is the result of a convergence of cultures. Romans, Arabs, Greeks, Phoenicians and Visigoths, all contributed to the history of the Andalusian gastronomy.

Tapas are small appetizers, which are served in bars and restaurants throughout Spain. Sometimes the price includes a drink. You can eat tapas that consist in a small portion of any type of meal. You can actually have a full meal with tapas!

Meals are served late in the evening compared with the rest of Europe: breakfast is normally eaten between 7.30 a.m. and 10.30 a.m. Lunch is served from 2 p.m. to 4 p.m. and dinner from 8.00 p.m. and 11 p.m. However, most of restaurants adapt their times to the European norms and will serve food earlier.
ENTERTAIMENT AND LEISURE

Picasso’s hometown is more and more recognized as an important cultural destination. The capital city of La Costa del Sol offers a wide variety of museums and exhibitions as well as theatres and halls. You should not miss the opportunity to get into our history and customs, our learning about the finest international art.

WEEKEND FUN

Malaga has an exciting and varied nightlife. While the city center’s shops close, numerous bars offer foreigners the chance to get to know the locals.

SPECIAL ATTENTION

Students should take special care of their personal belongings. It is extremely unadvisable to leave any unsupervised items in bars, shops, etc. Important documents and large sums of cash should be left at home.
