Senior Engineer

Location: Spain, Granada

Job type: Full Time

As **Senior Software Engineer** you will develop Unit4 products, creating more space, more time, **time for real work!**

What you will do

As senior Engineer, you will develop code following **Agile Software Development**. You will participate in different projects, some of them, with the **most recent cloud service platforms**, like **Azure**.

You will work together with a team of developers and testers, who are eager to share their knowledge and experience and also to learn from you. You will be responsible for code reviews and your code will be reviewed by your colleagues. You will also refine user stories with the team!

As a Senior Software Engineer / Developer, you will work closely with Product Management (PM) to create code for solutions that meet the needs and wants of our customers, all over the world.

Your Profile

You have a have a minimum of 3 years of higher education within information technology and/or equivalent relevant experience within software development. You have knowledge or experience of agile development methodologies, including **Scrum, TDD, and/or BDD**

You have more than 5 years of experience in a corporate environment and you are proficient in **C#, .Net Framework**, OOP in general, SQL, Javascript, HTML5, CSS3; We will provide you with different trainings to keep progressing your career, not only related to our products but also technology related and soft skills training.

Having Experience in Javascript frameworks (such as Angular, ExtJs, NodeJS, React, etc), knowledge of Rest and/or GrapQL and knowledge in TFS and continuous integration tools or cloud technologies (Azure) will be an asset.

Your English skills are good and You easily connect with others and work in a team.

We offer

In our offices in Granada, you will find a team that allows high level of flexibility and independence where work/life balance is in focus - this means that you're the one responsible to manage your working hours (Flexi Time), and you can even work from home every now and then. And in July and August, you can enjoy more time for yourself as we have reduced working hours in these months.

You will have access to training to develop yourself personally and professional and you will have fresh fruit and coffee every day. You will also enjoy extra days of holidays depending on your seniority (up to 28 days).

There is also time for you to have fun participating in social events organized by our Unit4Fun group, time for solidarity causes with our Unit4Cares group, time for sports with Unit4Moves and time to be conscious about the role of women in technology with our Business Women Network.
