

OFERTA DE TRABAJO

Empresa: Topshore (www.TopShore.com)

Puesto de trabajo: Mechanical Engineer / Drawer in the Netherlands

Perfil solicitado: Grado y/o Master Ingeniería Mecánica.

Descripción del trabajo:

TopShore is seeking Mechanical Engineers for a major shipbuilding company in The Netherlands.

As a mechanical engineer your work involves technical 2D drawings and the dimensions on production orders. You will also use 3D overview drawings for detailing pile-driving machines and their components. Your assignments, the rules and guidelines are issued by the chief engineer. Other responsibilities are:

- Drawing and designing machine parts
- Making strength calculations for machine parts
- Making detailed drawings for production purposes, including parts lists
- Putting together construction files and manuals
- Checking the dimensions in practice in the event of problems
