2023.4.11

Dear MIGUEL ÁNGEL MEDINA

Abstract ID: 50515
Abstract Title: Selected problems/cases to stimulate collaborative learning regarding the dynamic flexibility of metabolism
Topic: Undergraduate teaching/learning

Thank you for submitting an abstract to the 47th FEBS Congress, to be held 8-12 July, 2023 in Tours.

On behalf of the Scientific Programme Board, we are pleased to inform you that your abstract has been accepted for a **SPEED TALK** in one of the event's Speed Talk Sessions, as well as a **POSTER PRESENTATION**.

Speed Talk

Your Speed Talk presentation will soon appear in the program overview page of the Congress website (https://2023.febscongress.org/program), and is expected to be on the same day as your poster presentation or the day before. Please check this webpage towards the end of April to note the time of your talk in one of the Speed Talk Sessions.

Your presentation's duration in this session will be strictly 3 minutes maximum, without questions. More guidelines for the preparation of your Speed Talk can be found on the website here: https://2023.febscongress.org/talk-guidelines.

Poster

Please note that you also need to present a poster at the event, to show your work in more detail. Attended poster sessions for the different abstract topics along with guidelines for poster preparation are on the Congress website here: https://2023.febscongress.org/poster-guidelines.

IMPORTANT: CONFIRMATION REQUIRED
Please email us at scientific-febs2023@wearemci.com by **13 April 2023** to secure your position within a Speed Talk Session. If we do not hear from you, your talk slot may be allocated to a reserve.

Congratulations on the selection of your abstract for an oral presentation as well as a poster, and we look forward to welcoming you to Tours!

Kind regards,
FEBS 2023 Congress Scientific Secretariat
