## Características de la participación en programas europeos

- **Desarrollo de actividades I+D+i con alto grado de Innovación y Valor a nivel europeo**
- **Proyectos en consorcio:** mínimo 3 grupos de 3 países diferentes
- **Diferentes roles** de los participantes: Coordinador, socio,...
- **Convocatorias periódicas**
- **Financiación**
  - Instituciones públicas: 100% costes directos
  - Empresas: 100% (RIA- proyectos de investigación e innovación) o 70% (IA- proyectos de innovación)
  - **Costes indirectos:** Tasa fija y única del 25% de los Costes Indirectos (menos subcontratación)

SC1-PM-02-2017: Ne

Specific Challenge: D  
era, still a majority o  
clinical perspective, in  
which patients and,  
aspiration to provide  
groups of individuals  
variable response of ir

Patient stratification & pathological processes lead to the development of patients, thus achieving

**Scope:** Proposals shall address the following areas:  
stratification to address the needs of different groups;  
proposals should integrate economic, social, and environmental factors;  
omics, including pharmaceuticals, medical devices, and diagnostics.

of computational modelling. The new concepts of stratification should be validated in pre-clinical and clinical studies taking into account sex and gender differences. Applicants are encouraged to actively involve patient associations. The proposals should consider regulatory aspects of clinical practice and commercialisation opportunities. Proposals should focus on complex diseases having high prevalence and high economic impact.

The Commission considers that proposals requesting a contribution from the EU of between EUR 4 and 6 million would allow this specific challenge to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

### Expected Impact:

- New models for patient stratification to inform clinical decision making.
  - Accelerate the translation of biomedical and clinical research results to medical use.
  - Increased cost-effectiveness of the novel concepts in comparison to already established practices.
  - Increased research and innovation opportunities in this innovative industries-driven field, particularly small or medium-sized enterprises (SMEs).

Type of Action: Research and Innovation action

# Societal Challenge 1

## Prioridades

Medicina personalizada, enfermedades raras, biomonitorización humana, salud mental, investigación en efectividad comparada, tecnologías avanzadas, eHealth (salud electrónica) y Mhealth (Salud Movil) robótica, responsabilización/capacitación del paciente, envejecimiento activo y saludable, big data, valorización, resistencia a anti-microbianos, enfermedades infecciosas incluidas vacunas, salud materno-infantil y Silver economy (economía de los seniors)

- 2016: convocatorias de una única fase
- 2017: convocatorias de una única fase,  
excepto 4 *topics* que tienen 2 fases

## Topics abiertos – Personalised Medicine

### 1.1 Understanding health, well-being and disease (4 topics)

- [SC1-PM-01-2016](#): Multi omics for personalised therapies – **cierra 13/04/16**
- [SC1-PM-02-2017](#): New concepts in patient stratification **29/07/16 - 04/10/16 1ª fase**
- [SC1-PM-03-2017](#): Diagnostic characterisation of rare diseases **29/07/16 - 11/04/17**
- [SC1-PM-04-2016](#): Networking and optimising the use of population and patient cohorts at EU level – **cierra 13/04/16**

### 1.2. Preventing disease (2 de 3 topics)

- [SC1-PM-06-2016](#): Vaccine development for malaria and/or neglected infectious diseases - **cierra 13/04/16**
- [SC1-PM-07-2017](#): Promoting mental well-being in the young **29/07/16 - 04/10/16 1ª fase**

## Topics abiertos – Personalised Medicine

### 1.3 Treating and managing diseases: (4 topics)

- SC1-PM-08–2017: New therapies for rare diseases; *clinical trials*  
**29/07/16 - 04/10/16 1ª fase**
- SC1-PM-09–2016: New therapies for chronic diseases - *clinical trials* - **cierra 13/04/16**
- SC1-PM-10–2017: Comparing the effectiveness of existing healthcare interventions in the adult population **29/07/16 - 04/10/16 1ª fase**
- SC1-PM-11–2016-2017: Clinical research on regenerative medicine – *clinical in-patient*; **cierra 13/04/16**

### 1.4 Active ageing and self-management of health: (4 topics)

- SC1-PM-14–2016: EU-Japan cooperation on Novel ICT Robotics based solutions for active and healthy ageing at home or in care facilities – **cierra 12/04/16**
- SC1-PM-15-2017: Personalised coaching for well-being and care of people as they age  
**20/09/16 – 31/01/17**

## **Topics abiertos – Personalised Medicine**

### **1.5 Methods and data (6 topics):**

- SC1-PM-16–2017: In-silico trials for developing and assessing biomedical products;  
**08/11/16 – 14/03/17**
- SC1-PM-17–2016: Personalised computer models and in-silico systems for well-being;  
**08/11/16 – 14/03/17**
- SC1-PM-20-2017: Development of new methods and measures for improved economic evaluation and efficiency measures in the health sector- **to be developed in 2016**  
**29/07/2016-11/04/2017**
- SC1-PM-21-2016: Implementation research for scaling-up of evidence based innovations and good practice in Europe and low- and middle-income countries; **cierra 13/04/16**

**SC1-PM-02-2017: New concepts in patient stratification 29/07/16 - 04/10/16 1<sup>a</sup> fase**

➤ **Challenge**

- Lead to the development of targeted therapies, optimizing the intervention to individual patients

➤ **Objective/Scope**

- Disease-mechanism based patient stratification
- Should integrate : pharmacogenomics, systems biomedicine approaches, network analysis and of computational modelling.
- Should be validated in pre-clinical and clinical studies taking into account sex and gender differences.

➤ **Expected Impact/Outcome**

- New models for patient stratification to inform clinical decision making.
- Increased cost-effectiveness of the novel concepts in comparison to already established practices.

## SC1-PM-03-2017: Diagnostic characterisation of rare diseases **29/07/16 - 11/04/17**

### ➤ Challenge

- An accurate molecular diagnosis for adequate patient management

### ➤ Objective/Scope

- To apply genomics and/or other –omics and/or other high-throughput approaches for the molecular characterisation of rare diseases
- Support appropriate bioinformatics tools and incentives to facilitate data sharing

### ➤ Expected Impact/Outcome

- Providing better means of high quality and clinical utility for the correct diagnosis of undiagnosed rare diseases

## SC1-PM-07-2017: Promoting mental well-being in the young

29/07/16 - 04/10/16 1<sup>a</sup> fase

### ➤ Challenge

- Mental and behavioural disorders in Young people (less than 25 years)
- Promotion of mental well-being and prevention interventions

### ➤ Objective/Scope

- Primary prevention interventions to promote mental well-being of young people and assess them for their effectiveness
- Multidisciplinary approach and involve the young themselves and other relevant stakeholders
- Particular attention to ethical issues.

### ➤ Expected Impact/Outcome

- Improved mental well-being in the targeted group of young people.
- Preventative strategies

**SC1-PM-08–2017: New therapies for rare diseases; *clinical trials* 29/07/16 - 04/10/16 1<sup>a</sup> fase**

➤ **Challenge**

- Therapy development for rare diseases

➤ **Objective/Scope**

- Clinical trials on substances where orphan designation has been given by the European Commission (a fecha de fin de la call-octubre 2016)
- Clear patient recruitment strategy is presented.
- May include novel interventions and/or repurposing of existing and known interventions
- To engage with patient organisations

➤ **Expected Impact/Outcome**

- Rapid progress in orphan drug development

## SC1-PM-10-2017: Comparing the effectiveness of existing healthcare interventions in the adult population

29/07/16 - 04/10/16 1ª fase

### ➤ Challenge

- Effective health care and prevention may be improved
- Efficiently managing co-morbidities

### ➤ Objective/Scope

- Compare the use of currently available preventative or therapeutic (pharmacological as well as non-pharmacological) healthcare interventions in adults
- Randomised controlled trials, pragmatic trials, observational studies, large scale databases and meta-analyses.

### ➤ Expected Impact/Outcome

- Improvement of guideline development for prevention or treatment of diseases and the management of comorbidities.

## **SC1-PM-15-2017: Personalised coaching for well-being and care of people as they age** **20/09/16 – 31/01/17**

### ➤ **Challenge**

- Developing and validating radically new ICT based concepts and approaches for empowering and motivating ageing people
- To help them improve and maintain their independence

### ➤ **Objective/Scope**

- Develop a proof of concept of radically new solutions for a personalised "virtual coach", building upon intelligent ICT environments, as open platforms and emotional computing

### ➤ **Expected Impact/Outcome**

- Usefulness and effectiveness
- Evidence of user-centred design and innovation

# Societal Challenge 2

- SFS-39-2017: How to tackle the childhood obesity epidemic?  
04/10/16-14/02/17 1<sup>st</sup> stage
- SFS-40-2017: Sweeteners and sweetness enhancers  
04/10/16-14/02/17 1<sup>st</sup> stage
- SFS-46-2017: Alternative production system to address anti-microbial drug usage, animal welfare and the impact on health  
04/10/16-14/02/17 1<sup>st</sup> stage

### SFS-39-2017: How to tackle the childhood obesity epidemic?

04/10/16-14/02/17 1<sup>st</sup> stage

#### ➤ Challenge

- Prevention of childhood obesity and its comorbidities; reduce the impact on health of poor nutrition, excess weight and obesity.

#### ➤ Objective/Scope

- Multi-actor and multi-disciplinary approaches with focus on specific target groups in the young

#### ➤ Expected Impact/Outcome

- Factors involved and their influence on the childhood obesity epidemic
- Tools, strategies and/or programmes to improve sustainable and healthy dietary behaviour and lifestyles

### SFS-40-2017: Sweeteners and sweetness enhancers

04/10/16-14/02/17 1<sup>st</sup> stage

#### ➤ Challenge

- Increase information about new and emerging S&SEs throughout the agri-food chain, toxicological impact of high doses, combined effects

#### ➤ Objective/Scope

- Focus on health, obesity and safety aspects, sustainability of the whole value chain

#### ➤ Expected Impact/Outcome

- Promote healthy diets and contribute to combating obesity while improving sustainable food security
- Dissemination to relevant stakeholders and food-related SME's; policy inputs

**SFS-46-2017: Alternative production system to address anti-microbial drug usage, animal welfare and the impact on health**

**04/10/16-14/02/17 1<sup>st</sup> stage**

➤ **Challenge**

- Chinese collaboration
- Health problems and product quality issues of monogastric species in confined systems livestock due to overuse of anti-microbial drugs

➤ **Objective/Scope**

- Means (tools, methods and schemes) by which more welfare-friendly production systems can help improve health, reduce use of veterinary drugs

➤ **Expected Impact/Outcome**

- Welfare-friendly production systems with reduced veterinary drug use and residues
- Improved biosecurity at farm level, contribution to common legislation and China-EU standards

## Topics – Advanced Materials and Nanotechnologies for Healthcare

- NMBP-12-2017: Development of a reliable methodology for better risk management of engineered biomaterials in Advanced Therapy Medicinal Products and/or Medical Devices **11/05/2016-27/10/16 1ª fase**
- NMBP-13-2017: Cross-cutting KETs for diagnostics at the point-of-care **20/09/2016-19/01/17**
- NMBP-14-2017: Regulatory Science Framework for assessment of risk benefit ratio of Nanomedicines and Biomaterials **11/05/2016-27/10/16 1ª fase**
- NMBP-15-2017: Nanotechnologies for imaging cellular transplants and regenerative processes in vivo **11/05/2016-27/10/16 1ª fase**

business case and exploitation strategy

NMBP-12-2017: Development of a reliable methodology for better risk management of engineered biomaterials in Advanced Therapy Medicinal Products and/or Medical Devices

11/05/2016-27/10/16 1ª fase

- **Challenge:** Identification of potential hazards of biomaterials to human health and to the environment integrating physical, chemical, biochemical and clinical methods
- **Scope:** Validating, adapting and/or developing a reliable methodology for risk assessment and thorough overarching hazard identification for engineered biomaterials
- **Expected impact:** Support to policy and decision making and to good governance in biomaterials research, test methods and schemes

## NMBP-13-2017: Cross-cutting KETs for diagnostics at the point-of-care

20/09/2016-19/01/17

- **Challenge:** provide novel technological Micro-Nano–Bio integrated Systems (MNBS) platforms to enhance the ability to sense, detect, analyse, monitor and act on phenomena from macro (e.g. body, organ, tissues) to nano scale (e.g. molecules, genes)
- **Scope:** Further development into a clinical setting of novel MNBS platforms, techniques and systems that have already been proven in a laboratory setting (laboratory Proof-of-Concept)
- **Expected impact:** Provide affordable systems with unique features that address specific well identified requirements in healthcare; whole value chain...

## NMBP-15-2017: Nanotechnologies for imaging cellular transplants and regenerative processes in vivo

11/05/2016-27/10/16 1ª fase

- **Challenge:** Nanotechnology-based imaging approaches with high sensitivity for monitoring of cell viability, engraftment and distribution, also use of nanomaterials for cells marking.
- **Scope:** Development of highly sensitive imaging approaches. **TRL 3/4 and reach 5/6**
- **Expected impact:** Novel highly sensitive nanotechnology-based imaging approaches for monitoring of survival, engraftment, proliferation, function and whole body distribution of cellular transplants in preclinical large animal models and patients

# Industrial Leadership

## LEIT ICT

## A new generation of components and systems

- ICT-03-2016: SSI - Smart System Integration; **cierra 12/04/16**

## Content

- ICT-24-2016: Gaming and gamification; **cierra 12/04/16**

## Robotics and Autonomous Systems

- ICT-27-2017: System abilities, SME & benchmarking actions, safety certification **08/12/16-25/04/17**
- ICT-29-2016: Photonics KET 2016; **cierra 12/04/16**
- ICT-30-2017: Photonics KET 2017 **08/12/16-25/04/17**

## Robotics and Autonomous Systems

[ICT-27-2017](#): System abilities, SME & benchmarking actions, safety certification  
08/12/16-25/04/17 (RIA)

- **Challenge:** Revitalise Europe's robot-making capacity
- **Scope:** Advancing the state of the art in the level of smart robotics system abilities
- **Expected impact:** Prioritised abilities: perception ability which is immune to natural variation (e.g. changing weather conditions); decisional autonomy; increasing dependability levels to the level of graceful degradation; systems that are able to self-verify correct behaviour in safety critical tasks

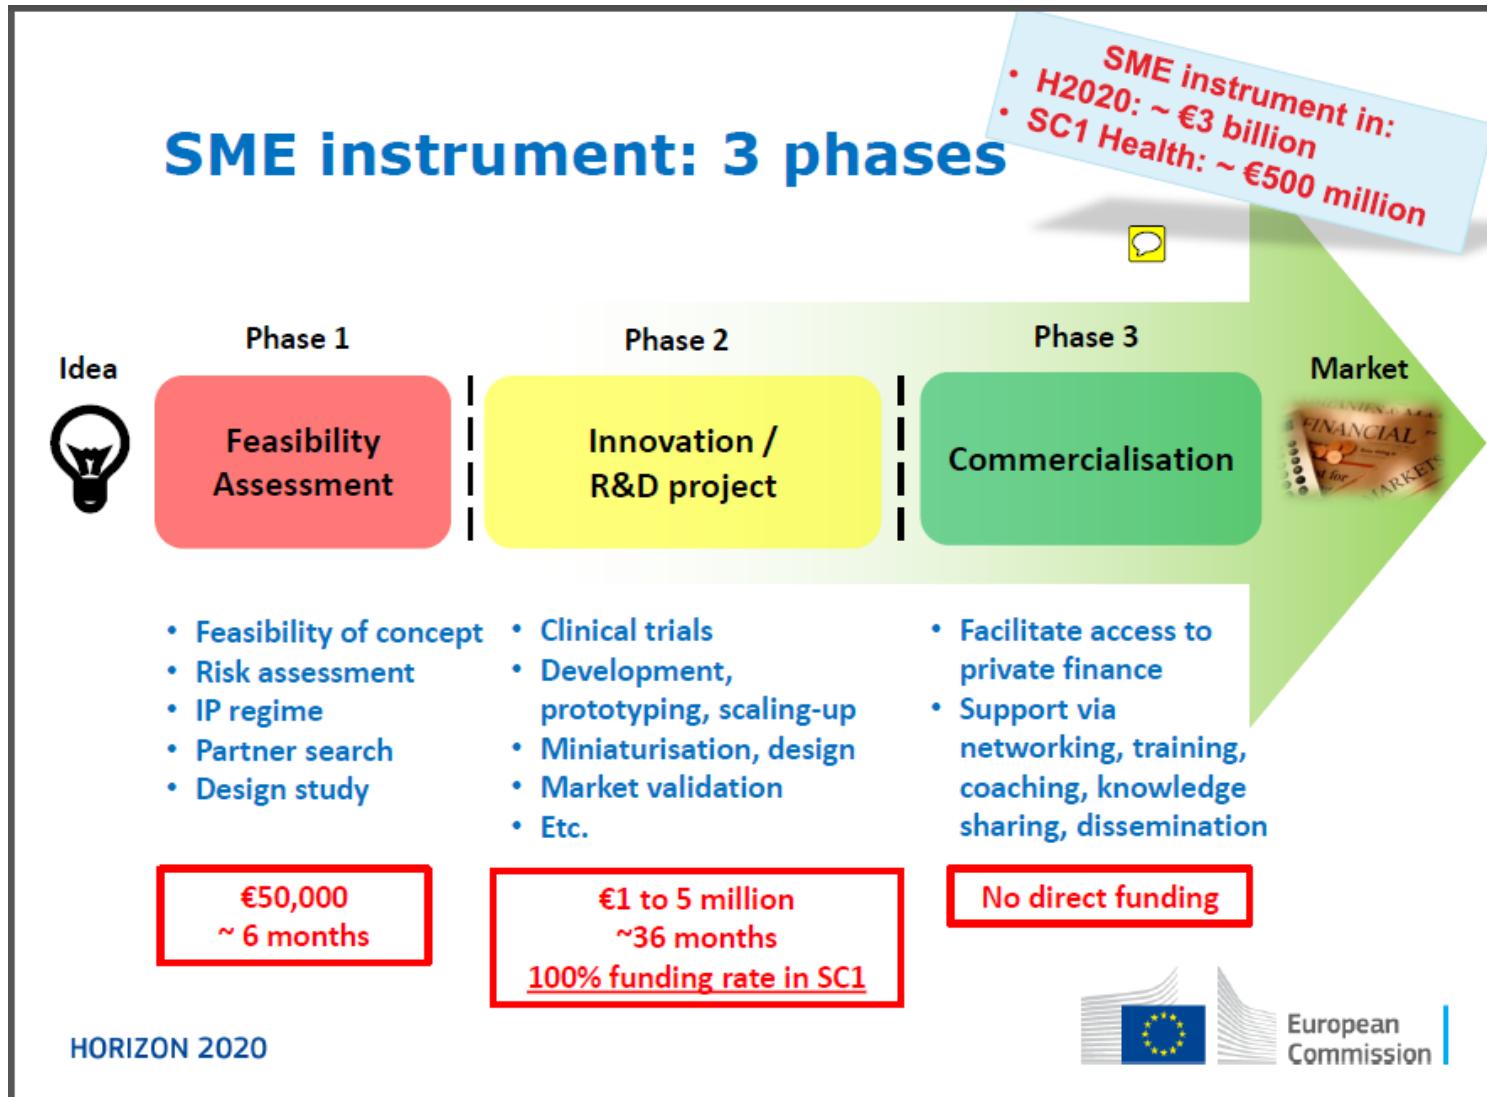

## Robotics and Autonomous Systems

[ICT-30-2017](#): Photonics KET 2017 08/12/16-25/04/17

- **Challenge:** Better exploit potential of photonics in many industrial sectors and in solutions addressing health and well-being, energy efficiency or safety
- **Scope:**
  - Agile Petabit/s Optical Core and Metro Networks
  - Photonic integrated circuit (PIC) technology
  - Disruptive approaches to optical manufacturing by 2 and 3 D opto-structuring
- **Expected impact:** According to the three main objectives

# SME Instrument

## 4. Other Funding Opportunities SME instrument

**SMEInst-03-2016-2017: Dedicated support to biotechnology SMEs closing the gap from lab to market**

**SMEInst-05-2016-2017 - Supporting innovative SMEs in the healthcare biotechnology sector**

**SMEInst-06-2016-2017 - Accelerating market introduction of ICT solutions for Health, Well-Being and Ageing Well**

**Fechas de corte:** febrero, mayo, septiembre, noviembre 2016 y 2017

# AAL-ACTIVE AND ASSITED LIVING

## Active and Assisted Living Programme

[www.aal-europe.eu/](http://www.aal-europe.eu/)

- Continuación del Joint Programme de AAL para 2014-2020
- **Objetivo:** apoyar a la industria, en particular a las PYMES, para que lleven al mercado europeo productos y servicios digitales innovadores para envejecer mejor y con calidad de vida.
- **Topic call 2016:** Living well with dementia
- **Deadline:** 26 mayo 2016

## Active and Assisted Living Programme

➤ **Deadline: 26/05/16**

[www.aal-europe.eu/](http://www.aal-europe.eu/)

➤ **Challenge**

- Support people with dementia and their carers
- **Clear route to market** Key priority - bring together technologies and services to create ICT based solutions. User-centred approach as well as pilots with a considerable number of end-users

➤ **Expected impact**

- On quality of life (independency, safety, dignity, satisfaction)
- On the market (increase ICT usage, public and consumer market, include end-users, industry, other stakeholders)

➤ **Specific characteristics**

- Consortia must include at least: 1 for-profit business partner and/or for-profit SME partner, 1 end-user organisation.

# Redes Europeas

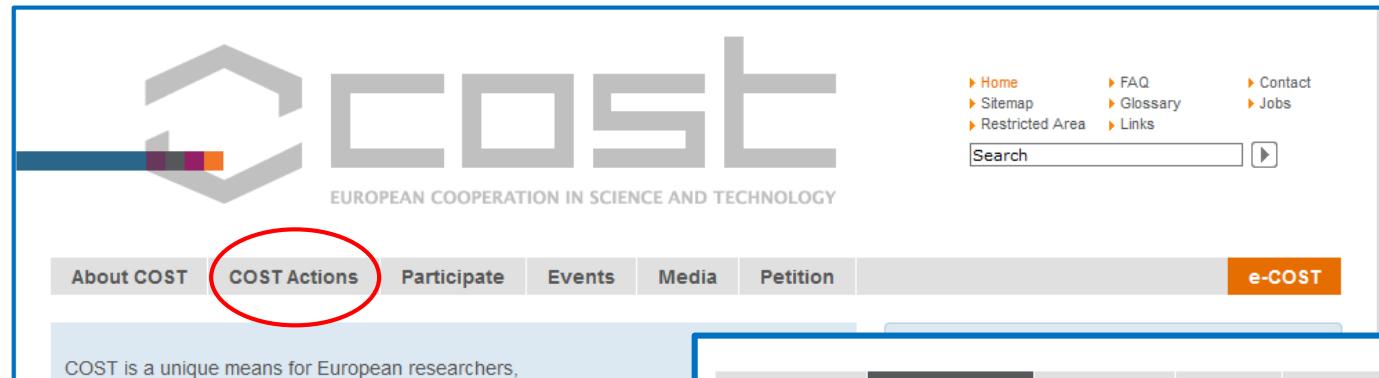

# COST

- **Objetivo:** creación de redes de investigación para intercambiar conocimiento, con temática abierta
- **Duración de la Actividad:** 4 años
- **Actividad financiable:** seminarios, talleres de formación, encuentros, estancias, actividades de difusión, bases de datos
- **Cuantía por actividad:** 100.000 euros /año
- **Beneficiario:** grupos investigación min. 5 países UE o asociados
- **Próxima convocatoria:** abierto todo el año (*collection days* en abril y septiembre)

[www.cost.eu](http://www.cost.eu)

## 5. COST Actions

The screenshot shows the main navigation bar of the COST website. The 'COST Actions' link is circled in red. Other menu items include 'About COST', 'Participate', 'Events', 'Media', 'Petition', and 'e-COST'.

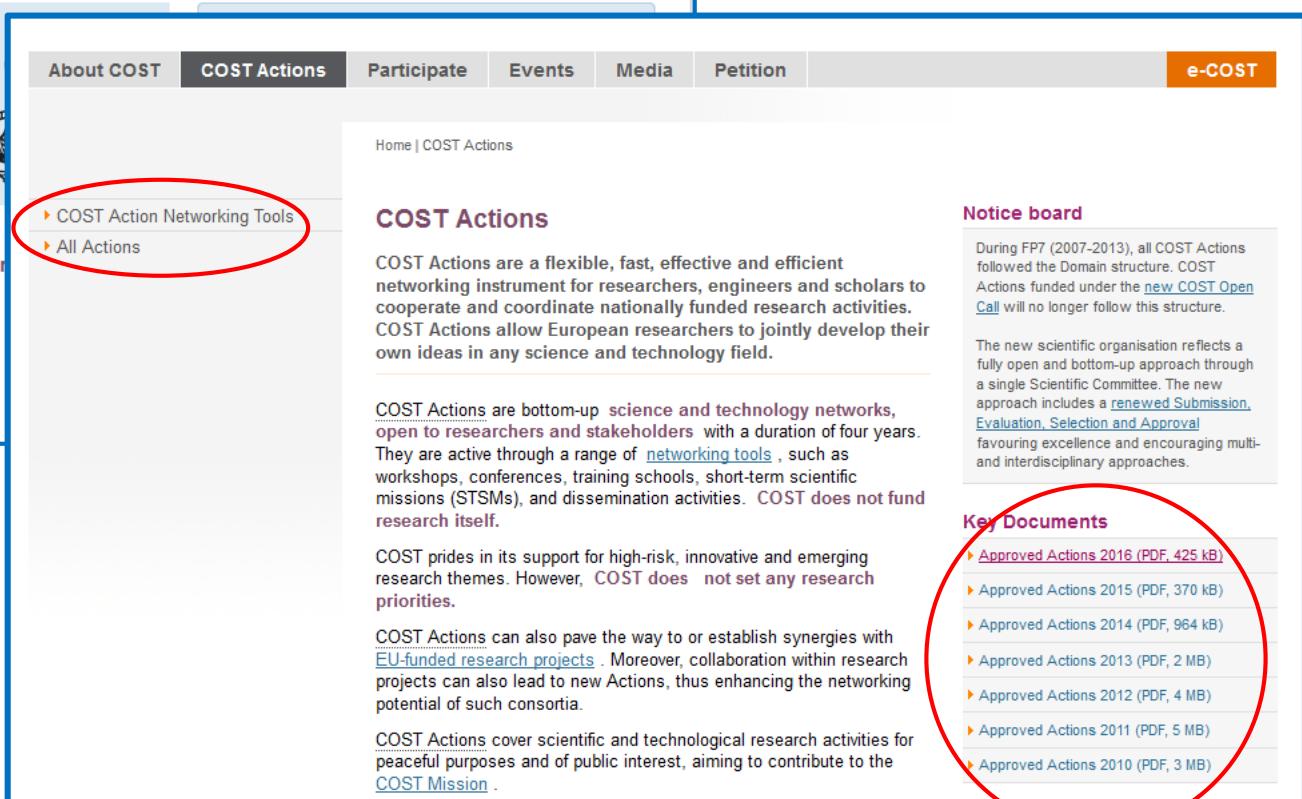

COST is a unique means for European researchers, engineers and scholars to jointly develop their own ideas and new initiatives across all fields of science and technology through European networking of nationally funded research activities. [► read more](#)

[Home](#) | [COST Actions](#)

## COST Actions

COST Actions are a flexible, fast, effective and efficient networking instrument for researchers, engineers and scholars to cooperate and coordinate nationally funded research activities. COST Actions allow European researchers to jointly develop their own ideas in any science and technology field.

COST Actions are bottom-up science and technology networks, open to researchers and stakeholders with a duration of four years. They are active through a range of [networking tools](#), such as workshops, conferences, training schools, short-term scientific missions (STSMs), and dissemination activities. COST does not fund research itself.

COST prides in its support for high-risk, innovative and emerging research themes. However, COST does not set any research priorities.

COST Actions can also pave the way to or establish synergies with [EU-funded research projects](#). Moreover, collaboration within research projects can also lead to new Actions, thus enhancing the networking potential of such consortia.

COST Actions cover scientific and technological research activities for peaceful purposes and of public interest, aiming to contribute to the [COST Mission](#).

### Notice board

During FP7 (2007-2013), all COST Actions followed the Domain structure. COST Actions funded under the [new COST Open Call](#) will no longer follow this structure.

The new scientific organisation reflects a fully open and bottom-up approach through a single Scientific Committee. The new approach includes a [renewed Submission, Evaluation, Selection and Approval](#) favouring excellence and encouraging multi- and interdisciplinary approaches.

### Key Documents

The screenshot shows the official website of the Spanish Ministry of Science and Innovation (MINECO). The header includes the European Union flag, the Spanish Government logo, the Ministry of Economy and Competitiveness logo, and the Secretaría de Estado de Investigación, Desarrollo e Innovación. It features a banner with wind turbines. The top navigation bar has links for Spanish, English, Català, Euskera, and Galego, along with a search bar and social media icons. Below the header, there's a main menu with tabs: INICIO, ORGANIZACIÓN, INVESTIGACIÓN, INNOVACIÓN, INTERNACIONAL (which is highlighted), CULTURA CIENTÍFICA, and PRENSA. A breadcrumb trail indicates the current location: Estás en: Inicio > Internacional > Actuaciones Europeas > Instrumentos del ERA > Esquema ERA-NETS. The left sidebar under the 'Internacional' heading lists categories: Instrumentos de Financiación (Plan Estatal de Investigación Científica y Técnica y de Innovación, Programa Anual de Actividades 2015 y anteriores), Actuaciones Europeas (Política y Estrategia Europea de Investigación, Desarrollo e Innovación, Instrumentos del ERA), and Organizaciones Internacionales (Organización para la Cooperación). The central content area is titled 'Esquema ERA-NETS' and discusses the scheme's purpose as a new tool for the 6th Framework Program of Research, Development, and Demonstration of the European Union, focusing on cooperation and coordination between Member States and Associated Countries. It also mentions the FLAG-ERA Press release and Infect-ERA Workshop. To the right, there are boxes for 'Documentos' (with links to the press releases) and 'Enlaces' (with a link to the ERA-NET Scheme). At the bottom, there's a section for 'Información y Atención al Ciudadano'.

Application: Transnational consortium  
Funding: National Agencies (MINECO, ISCIII...)

# 7 áreas prioritarias

## IMI2 scientific programme: the need for focus

### Therapeutic Areas and Cross-cutting Themes

- 1. Neuro-degeneration**
  - Successfully prevent and treat dementia and other neurodegenerative diseases
- 2. Prevention and treatment of immune-mediated disease**
  - Advance immunological understanding to deliver new treatments and develop new and better vaccines for non-infectious diseases
- 3. Metabolic disorders**
  - Tackle all phases of disease and its complications, including prevention and early interception
- 4. Infection control**
  - Address multidrug resistance and create incentives for reinvestment (including antimicrobials, antivirals, vaccines) and develop new and better prophylactic vaccines
- 5. Translational Safety**
  - Identification of predictors of safety and development of point of care for safety biomarkers and development of new human biology platform to predict toxicity and safety during early drug development

### Differentiating Enablers for all themes

- Towards early and effective patient access to innovative prevention and treatment solutions (Medicines Adaptive Pathways to Patients):
- Target validation based on human biology
  - Stratified medicine, precision medicine
  - Innovation in clinical trials
  - Data generation and interpretation (knowledge management)
  - Prevention, disease interception, patient adherence (incl. societal acceptance of vaccines)
  - Effect on medical practice and outcomes (health/disease management)
  - Regulatory framework (including pharmacovigilance)
  - Patient access

\* Neuro-degeneration

\* Immune-Mediated diseases

\* Metabolic Disorders

\* Infection control

\* Translational safety

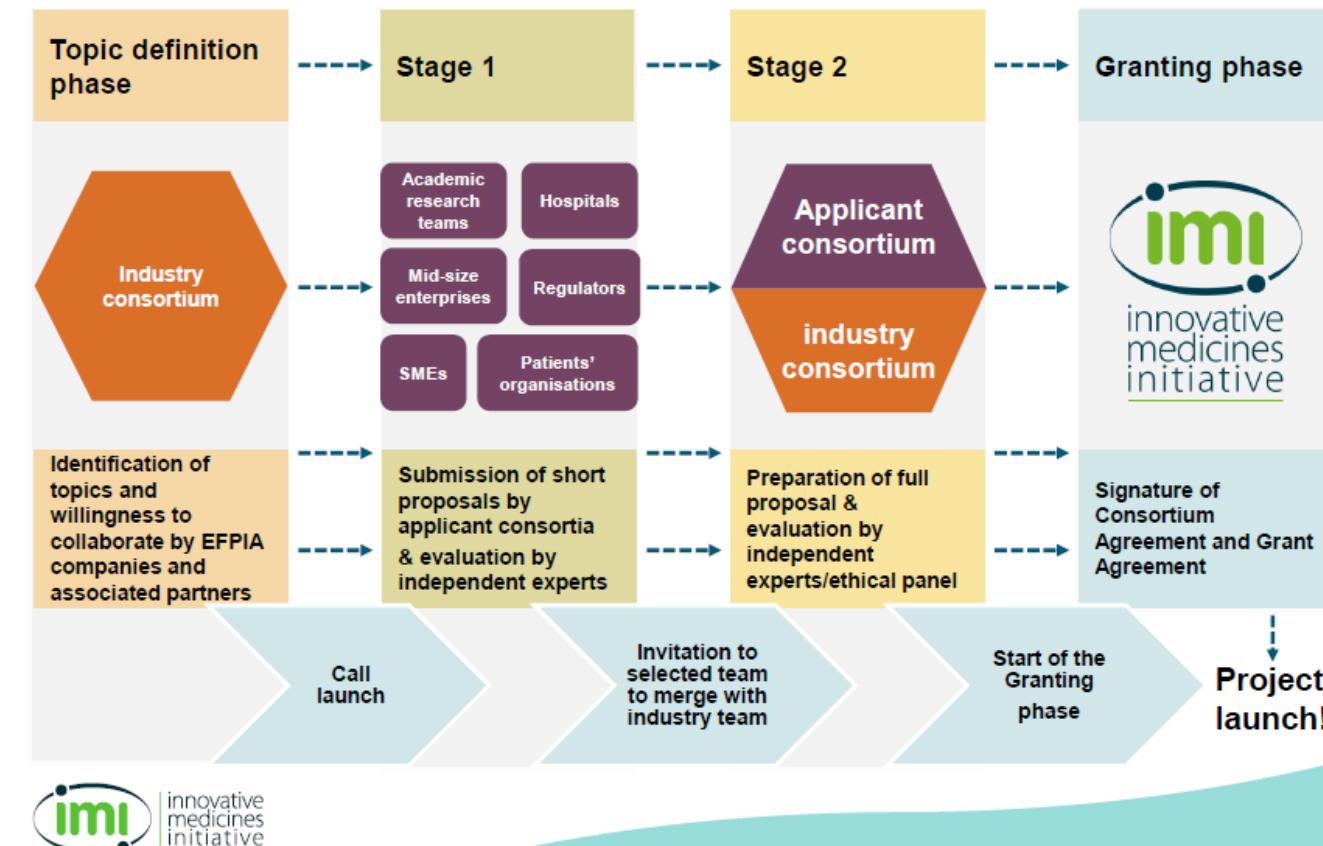

\* Medicines Adaptive Pathways to Patients

\* Data generation and exploitation

1. Ebola and other filoviral haemorrhagic fevers (Ebola+) programme: future outbreaks (abiertas 2016, 2017 y 2018)
2. A European distributed data network- Big Data for Better Outcomes
3. Addressing the clinical burden of *Clostridium difficile* infection
4. Development of immune tolerance therapies for the treatment of rheumatic diseases
5. Data quality in preclinical research and development
6. Next generation of electronic translational safety
7. Development and validation of technology enabled, quantitative and sensitive measures of functional decline in people with early stage Alzheimer's disease
8. Identification and validation of non-invasive markers across the spectrum of nonalcoholic fatty liver disease
9. Joint influenza vaccine effectiveness surveillance

<http://www.imi.europa.eu/content/future-topics>

## IMI 2 life cycle

# Third Health Programme- Work Programme 2016

DG SANTE  
CHAFEA AGENCY Execution

## 4 Prioridades (líneas):

- 1. Promoción de la salud, prevención de enfermedades y estrategias de mejora de estilos de vida saludables
- 2. Protección de los ciudadanos europeos de amenazas sobre la salud (a nivel de fronteras)
- 3. Contribuir a una innovadora, eficiente y sostenible sistemas de salud
- 4. Facilitar el acceso a un mejor y seguro servicio de salud

## TOPICS:

60-80% financiacion  
7% costes indirectos

- **PJ-01-2016:** Migrants' health: Best practices in care provision for vulnerable migrants and refugees.
- **PJ-02-2016:** Gathering knowledge and exchanging best practices on measures reducing underage drinking and heavy episodic drinking.
- **PJ-03-2016:** Gathering knowledge and exchanging best practises to on measures to prevent illicit drug use
- **PJ-05-2016:** Donor selection and protection

**FECHA LIMITE Presentacion Propuestas: 2 Junio 2016**

# Herramientas para participar en proyectos europeos

## A) CONOCER CONVOCATORIAS DE FINANCIACION EUROPEAS E INTERNACIONALES

- Usar los boletines informativos
- Reuniones personalizadas con la OPE

## B) PREPARAR UN PERFIL DE SOCIO: Subirlo a las Partner search tools

- Horizon 2020- Health and Wellbeing: [www.fitforhealth.eu](http://www.fitforhealth.eu)
- IMI: <http://www.imi.europa.eu/content/overview-imis-calls-how-participate>
- ERANET Nanomed: <http://www.etp-nanomedicine.eu/public/european-nanomedicine-map>
- ERANET TRASCAN: <http://www.transcanfp7.eu/transcan/mod/resource/view.php?id=69>
- ERANET ERARE: <http://www.erare.eu/>

## C) APUNTARSE COMO EXPERTO-EVALUADOR DE LA COMISION EUROPEA PARA PODER EVALUAR PROPUESTAS EUROPEAS

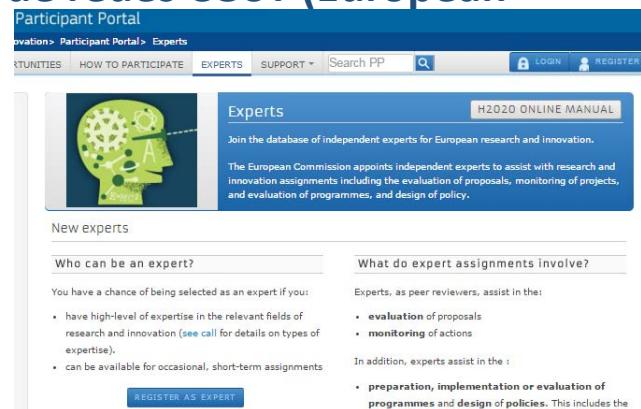

Ser evaluador-experto para organismos europeos es beneficioso para saber como se escriben las propuesta, para conocer que se esta haciendo en Europa en nuestro campo y para conocer a otros evaluadores de otros países que en un futuro podrán colaborar con nosotros.

### 1. Inscribirse como Evaluador de la Comisión Europea:

<http://ec.europa.eu/research/participants/portal/desktop/en/experts/index.html>

### 2. Inscribirse en otra base de datos para ser evaluadores de redes COST (European Cooperation in Science and Technolgy (COST):

<http://www.cost.eu/participate/experts>

The screenshot shows the 'Participant Portal' interface. At the top, there's a navigation bar with links for 'OPPORTUNITIES', 'HOW TO PARTICIPATE', 'EXPERTS', 'SUPPORT', and a search bar. Below the navigation, a banner for 'Experts' is displayed, featuring a green brain icon and text about joining the database of independent experts for European research and innovation. The main content area has two columns: 'New experts' on the left and 'What do expert assignments involve?' on the right. The 'New experts' column includes a form for entering information and a 'REGISTER AS EXPERT' button. The 'What do expert assignments involve?' column lists various roles such as evaluation of proposals, monitoring of actions, and preparation, implementation or evaluation of programmes and design of policies.

NUEVAS POSIBILIDADES DE FINANCIACIÓN DE LA INVESTIGACIÓN CON LAS ACCIONES MARIE SKŁODOWSKA-CURIE				
¿Qué acción?	ITN Redes de Formación Innovadora <i>(Solicitud presentada por la entidad acogedora)</i>	IF Becas Individuales <i>(Solicitud presentada por las personas individuales)</i>	RISE Intercambio de Personal de Investigación e Innovación <i>(Solicitud presentada por la entidad acogedora)</i>	COFUND Cofinanciación de programas regionales, nacionales e internacionales <i>(Solicitud presentada por las entidades financiadoras)</i>
¿Qué ofrece?	Una formación en investigación de alta calidad impartida a través de redes internacionales e interdisciplinares, doctorados industriales o doctorados conjuntos	Oportunidades para trabajar en proyectos personales de investigación mediante la movilidad entre países y posiblemente entre sectores, para adquirir nuevos conocimientos.	Intercambios internacionales y/o intersectoriales de empleados que participen en la investigación y la innovación para desarrollar proyectos sostenibles de colaboración y transferencia de conocimientos.	Programas regionales, nacionales o internacionales para fomentar la excelencia en la formación, la movilidad y el desarrollo de la carrera profesional de los investigadores.
¿A quién está dirigido?	A redes de organizaciones que fomen a investigadores en el ámbito doctoral (menos de cuatro años de experiencia en investigación a tiempo completo y sin un doctorado).	A investigadores que hayan hecho ya el doctorado (título de doctorado o, como mínimo, cuatro años de experiencia en investigación a tiempo completo).	A asociaciones de organizaciones que lleven a cabo un proyecto de investigación conjunto con el respaldo del intercambio de su personal (personal investigador, técnico, administrativo y directivo).	A organizaciones que financien o dirijan programas de becas o doctorado.
	Predoctorales	Postdoctorales	Pre y Postdoctorales Técnicos y Gestores	Pre y Postdoctorales

## 2. Modalidades de Accs. Marie Skłodowska Curie

---

### Características de la modalidad “Individual Fellowships(IF)”

#### **FUNDAMENTAL para PODER PARTICIPAR**

- **Regla de Movilidad:** El investigador no puede haber residido ni trabajado en el país del centro de acogida más de 12 meses en los 3 años anteriores a la fecha límite de la convocatoria\*.
- **Titulación:** Sólo investigadores con el título de Doctor o que acrediten mínimo 4 años de experiencia en investigación a tiempo completo .

La **fecha LÍMITE** para ambos criterios es la **fecha de cierre** de la

convocatoria (IF2016: **14/09/2016**)

## 2. Modalidades de Accs. Marie Skłodowska Curie

---

### Características de la modalidad “Individual Fellowships(IF)”

#### ¿QUÉ FINANCIÁ?

Financia la **contratación** de investigadores posdoctorales para el desarrollo de un proyecto de investigación en un centro de la UE.

- ✓ Contratar a un investigador posdoctoral, incluso español\*
- ✓ Atraer talento que emigró a un tercer país
- ✓ Recuperar investigadores que dejaron la investigación.
- ✓ Captar buenos investigadores, por 2 años

\*Siempre y cuando se cumpla la regla de movilidad

# Los Candidatos

---

Qué hacer cuando **tenemos** un candidato.....

- ✓ Revisar que cumple los requisitos de la convocatoria
- ✓ Preparar la propuesta

# Los Candidatos

## Qué hacer cuando **NO tenemos** un candidato

- ✓ Contactar con tus colaboradores internacionales: proyectos, publicaciones, etc.
- ✓ Hacerse ojeador en congresos y workshops
- ✓ Rastrear “españoles por el mundo”
- ✓ Utilizar portales como *naturejobs*, **euraxess**, ... para difundir el perfil que buscas (nosotros te ayudamos a preparar el perfil y distribuirlo)

[www.euraxess.eu](http://www.euraxess.eu)

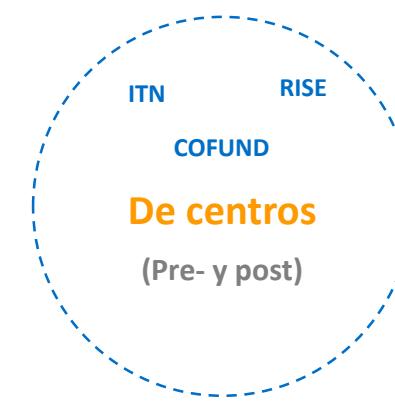

The screenshot shows the EURAXESS homepage with a blue header featuring the European Commission logo and the EURAXESS logo. Below the header, there's a banner with three scientists in lab coats. To the right of the banner are four overlapping circles labeled 'JOBS', 'LINKS', 'RIGHTS', and 'SERVICES'. At the bottom, there are five columns with links: 'Jobs' (Job Vacancies, Fellowships, Postdoctoral programmes, Researcher Development, News and Events, Research policies, Useful links), 'Services' (Search for services, EURAXESS Service Centers, Search for research partners, BestPractices), 'Rights' (The Charter for Researchers, The Code of Conduct for their recruitment, The Human Resources Strategy indicators, Social Security & Pension, Entry conditions), 'Links' (About EURAXESS Links, European R&D policies, European R&D Framework Programmes, Destination World), and a 'European Research Area' logo.

## 2. Modalidades de Accs. Marie Skłodowska Curie

**Deadline: 10 enero 2017**

### INNOVATIVE TRAINING NETWORK-ITN

**Objetivo:** Mejorar la “empleabilidad” de los jóvenes investigadores (pre-doc) mediante una **formación en una red internacional** (con participación empresarial) y fomentar la excelencia y estructurar la formación doctoral.

#### • Financiación:

- Creación de un consorcio internacional – intersectorial (publico-privado) para **contratar y formar a Pre-doctorales**, bajo la base de un proyecto conjunto de investigación, construido con líneas de investigación individuales.

- Capacitación en investigación avanzada (aprendizaje de nuevos métodos y herramientas...)
- Formación complementaria en transferable skills (IPR, gestión proyectos, como escribir artículos científicos, presentaciones eficaces, búsqueda de financiación...)
- Actividades de networking para toda la Red (seminarios, workshops, cursos de verano...)

- **Duración de las acciones ITN:** 48 meses (estancias de 12 a 48 meses)
- **Configuración del Consorcio:** Existen distintas modalidades de ITN.

## 2. Modalidades de Accs. Marie Skłodowska Curie

**Deadline 2016: 28 abril 2016**

**Deadline 2017: 5 abril 2017**

### RESEARCH AND INNOVATION STAFF EXCHANGE

#### In Brief

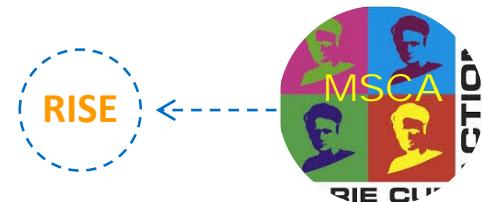

- Un proyecto con **actividades de investigación y innovación conjuntas**.
- Un Proyecto **implementado** a través de **intercambios** de personal (*no contratación*).
- Cada intercambio del personal por un período de **1 a 12 meses**.
- La duración máxima de un proyecto es de **4 años**.

## 2. Modalidades de Accs. Marie Skłodowska Curie

### RESEARCH AND INNOVATION STAFF EXCHANGE

Un Proyecto implementado a través de **intercambios** de personal intersectorial (publico-privado) y/o internacional (europa-No europa)

Tipo de personal que puede realizar intercambios:

- ✓ ESR (sin PhD/Doctorado y < 4 años de experiencia)
- ✓ ER (con PhD/Doctorado o > 4 años de experiencia)
- ✓ Personal de gestión
- ✓ Personal Administrativo o Técnico

Requisitos que debe cumplir este personal: personal activamente involucrado o relacionado con las actividades de investigación/innovación durante **al menos 6 meses** antes del primer intercambio y retorno obligatorio a institución de partida.

**Intercambios:** Mínimo 1 mes, máximo 12 meses (posibilidad de estancias divididas en varios períodos).

European Research Council  
Established by the European Commission

## Starting Grants (StG)

### FINANCIACIÓN

1,5 M€ [2,0 M€]

### ELEGIBILIDAD

- PhD o equivalente: entre 2 y 7 años
- Al menos una publicación independiente ( sin supervisor de tesis)

### PERFIL

- Publicaciones en revistas indexadas internacionales
- Invitación a conferencias, jornadas, ect. internacionales
- Patentes, premios

# European Research Council ( ERC) Actions

## Consolidator Grants (CoG)

### OBJETIVO

Consolidar las carreras independientes de investigadores de excelencia al proporcionarles el apoyo adecuado en el momento crítico en el que **consolidan su propio equipo**.

### FINANCIACIÓN

El desarrollo de un proyecto de investigación con el objetivo de apoyar la independencia del investigador para consolidar su propio grupo.

### DURACIÓN

5 años

# European Research Council ( ERC) Actions

European Research Council  
Established by the European Commission

## Consolidator Grants (CoG)

### FINANCIACIÓN

2 M€ [2,75 M€]

### ELEGIBILIDAD

- PhD o equivalente: entre 7 y 12 años
- Varias publicaciones independiente ( sin supervisor de tesis)

### PERFIL

- Publicaciones en revistas indexadas internacionales
- Invitación a conferencias, jornadas, ect. internacionales
- Patentes, premios

# European Research Council ( ERC) Actions

European Research Council  
Established by the European Commission

## Advanced Grants (AdG)

### OBJETIVO

Apoja proyectos de investigación excelentes e innovadores de alto riesgo y rendimiento atrayendo y premiando a los líderes independientes ya establecidos

### FINANCIACIÓN

El desarrollo de un proyecto de investigación con el objetivo apoyar la investigación excelente.

### DURACIÓN

5 años

# European Research Council (ERC) Actions

European Research Council  
Established by the European Commission

## Advanced Grants (AdG)

### FINANCIACIÓN

2.5 M€ [3 M€]

### ELEGIBILIDAD

*“Have a track-record of significant achievements in the last 10 years”.*

### PERFIL APROXIMADO

- $\geq 10$  Publicaciones en revistas indexadas internacionales
- $\geq 5$  patentes
- $> 3$  Invitación a conferencias y “advanced schools”
- Premios internacionales
- “Major contribution to launching the careers of outstanding researchers”
